Praxis Core Reading 5729

Section: 5752 Core Academic Skills for Educators • **Total Questions:** 1 • **Format:** Verified Q&A

1. A bag contains 12 identical pieces of paper, each of which has a different number from 1 to 12 written on it. If one of the pieces of paper is to be drawn from the bag at random, what is the probability that the number on this piece of paper will be divisible by 2 but not by 3?

(A) 12-Jan
(B) 04-Jan
(C) 03-Jan
(D) 12-May
(E) 02-Jan
